

Poster presentation Program

20 July 2018

ID	Name :	Lastname :	University :	Paper Title :
Group 1 : Physiology and Biomechanics				
PBP-ICANS6	Orawan	Jaiharn	Chulalongkorn	Six weeks of hip-focused exercises improve knee function following Anterior Cruciate Ligament reconstruction
PBP-ICANS7	Nootcbaba	Polkool	Khon Kaen University	Correlation between energy expenditure and movement activity of body extremities on stroke rate and stroke velocity among national rower male athlete (Pilot Study).
Group 2 : Nutrition				
NP-ICANS31	Pinyo	Chotirat	Thaksin University	The Effect of Elastic Taping to Ankle Joint on Postural Stability of Round Kick in Youth's Taekwondo Players:

ID	Name :	Lastname :	University :	Paper Title :
NP-ICANS32	Thanumporn	Thonglong	Udon thani rajabhat university	A study of dietary supplements for sports and exercise of people in Udon Thani province
NP-ICANS33	Yuya	Ota	University of Tsukuba,Japan	The effect of inactivity on the function of satellite cells.

Group 3 : Exercise Physiology and Training

ETP-ICANS12	Chaladol	Boonsri	Institute of Physical education Bangkok campus,Thailand	The Prevalence of the Lower Extremities Injuries in Handball Players and Correlation with the Agility
ETP-ICANS2	Min-Jung	Hsieh	University of Taipei,Taiwan	Effect of Supplement Caffeine and High Intensity Interval Training on Aerobic Capacity, Glucose Tolerance, and Body Composition
ETP-ICANS3	Nantaya	Krasuaythong	Ubon Ratchathani University,Thailand	Effect of Black Rice Bran Extract Supplementation on Circulating Leukocyte Counts to Moderate-Intensity Exercise in Dyslipidemic Subjects

ID	Name :	Lastname :	University :	Paper Title :
ETP-ICANS4	Peng-Wen	Chen	University of Taipei,Taiwan	Effects of Chlorella extract solution supplementation on dehydration-induced fatigue in male college athletes
ETP-ICANS6	Maryam	Rahmani	Tehran science and research branch of Islamic Azad university,Iran	Oral DHEA supplementation and tennis performance in female players

Group 3 : Exercise Physiology and Training

ETP-ICANS26	Zhen	Xiao	Khon Kaen University	Immediate effects of a Shuai Shou Gong on shoulder range of motion and occiput-wall distance: a pilot study in young adults
ETP-ICANS27	HsinYi	Huang	NTS University	Effect of Hypoventilation Training on Anaerobic Power and Blood Lactate of Basketball Players
ETP-ICANS28	Preetiwat	Wonnabussapawich	Nakhon Ratchasima Rajabhat University	The effect of Plyometric training program on soccer pass and receive, jump high and maximal oxygen consumption performance

ID	Name :	Lastname :	University :	Paper Title :
ETP-ICANS29	Arunya	Buttichak	Khon Kaen University	The Effects of a Yoga Training Program with fit ball on Physical Fitness and Body Composition in Overweight or Obese Women.
MP-ICANS1	Magdalena	Alhaddad	Univercity College Dublin,Kuwait City	Self-Reported Physical Activity Intensities and Disease Risk Factors in the Kuwaiti
MP-ICANS3	Jinfeng	Yang	Burapha University	Construction Of Combined Media Teaching Program To Enhance Wushu Jumping Skills
MP-ICANS4	Satoshi	Matsuo	Tottori University, Japan	Changes in the cerebral blood flow after electrical stimulation of the cervical
PTP-ICANS4	Nopparak	Kaesaman	Khon Kaen University	The Acute Effects Of Traditional Thai Massage On Recovery By Heart Rate Variability Physical Fitness In Basketball Players
